FRIDAY MORNING, FEBRUARY 19.

THE CAPITAL.

There were no developments yesterday regarding the Capital question. The Parkersburg bill had its first read-The Parkersburg bill had its first reading in the Senate. We learn that owing to the absence of several Senators (on committees visiting the Penitentians and Verkeley Springs) there is not we submit therefore to our Republitiary and Berkeley Springs) there is not tion on the bill to day and perhaps not this week.

MR. Scoffeld in the House yester day took occasion as a "question of privilege" to "protest" against what he House, he said their reports went out as semi-official and he left it to be inferred the House was in some sense responsible for them. We do not admit there was any error as claimed; but whether there was or not, the honorable member is carrying a greater load to the seminary of the sense was end of the sense with a strange disease, and the symptoms in this case were of the typhus fewer. On Sunday morning he seemed of responsibility than there is any oc- fever. We are sorry that even the rude boys should have employed such means of retaliation, for if in earnest it was mean and cowardly, and if in sport it was in very bad taste at least. All such foolish attempts to retaliate in kind are to be deprecated and discountenanced.

JOHN D. D. ROSSET, claborates in the Ravenswood Press a plan for a railroad from Parkersburg to Charleston. The distance is 90 miles and he thinks either the Pennsylvania Central or the Baltimore and Ohio Railroad would endorse the bonds of a company borrowing money for the purpose.

ABSENT .- The Hon. P. Nutt Smith, the member from Morgan, left the city yesterday afternoon for Berkely Springs, for a short period of repose in

the present Congress, in order to take the oath of office as Vice President.

THE Supreme Court now hold that there are two descriptions of lawful money in circulation, both sanctioned by law and both, therefore, a legal-tender. That in view of this fact contracts for payment of the latter in terms must be enforced, and that where coin is probe enforced, and that where coin is provided to be paid judgment should be for such description of money; but where no description is named judgment should be entered generally, without specification.

THE CAPITAL QUESTION.

To the Editor of the Intelligence Parkersburg derives her main strength in the Capital controversy, now pending before the Legislature, from the intense desire of members of that body to have the question finally settled, so that it may not occupy the time and interfere with the deliberations of future Legislatures. It should be borne in mind, however, that this Legislature can do nothing on that subject, that may not be undone by a future Legislature.

WALTHAM WATCHES

To Buyers of Watches Everywhere.

The greater part of the jewelers of the United States keep Waltham Watches, and cordially recommend them to their customers, notwithstanding the fact that less profit s made on these watches than on any others generally sold by the trade. The reason of this is, that the reputation or the Wal-tham Watch renders it an easy sale, and the esult is, that, although the dealer does not make as much money on each individual watch as he may on the sale of other watches, he is still the gainer through larger and livelier sales. There are some, however among the trade, who do not give the Waltham Watch the hearty support which Waitham Watch the hearty support which it deserves. This portion of the trade fancy there is more money to be made by dealing in watches about which the public are ignorant, and in which there is less competition, and are content to make an occasional sale of such watches at a large profit. It is this class of dealers who, when asked about Waitham Watches, use that kind of language which leads the customer to buy just such a watch as is the most profitable for the dealer to seil.

desiler to sell.

For the information of persons about to
buy a watch, and who may be unfavorably
affected by the representations of those unfriendly to our watches, we call attention to buy a watch, and was may be discussed by the representations of those unfriendly to our watches, we call attention to the following suggestions:

Since the manufacture of watches was initiated at Waltham, the Company have made and sold about 400,000 watches. In every town and village of the country some wearer of a Waltham Watch may be found. Let the party about to buy ask this owner of an American Watch this question:

HAS YOUR WATCH GIVEN YOU SAT-ISFACTION?

We are not afraid to advise those wishing to buy a watch to guide themselves by the answer. Being satisfied as to the quality of the watch, the buyer has now only to satisfy himself that the Waltham Watches are THE CHEAPEST as well as the best. On this head we have a few words to say:

It is a well known fact in manufacturing, that the greater the number of articles manufactured by one establishment, the smaller will be the cost of each individual article. Keeping this in view, our policy has always reen to sell our products at the lowest possible price in order to secure large sales, and that enable us to manufacture watches at a minimum cost. WE BE-LIEVE IN SMALL PROFITS AND A LARGE BUSINESS. This policy we have successfully carried out, and the result is, that to-day we manufacture twice as many watches as all the other factories in the United States put together. We can, therefore, afford to sell Cheaper than they do, and actually do sell Truenty-five per cent Cheaper than they do quality for quality.

We have had the refusal of nearly all inventions intended to improve time-pirees, and

ing our production we have constainty improved its QUALITY AND ITS VARIETY. We have had the refusal of nearly all inventions intended to improve time-pieces, and have adopted all those, and those only, which have proved to be really valuable. We have retained in our employment every head of a department we have ever had whose services were of any importance to the Company, and our present corps of designers and master mechanics caunot be equaled in this or any other country. In addition to this we make gold and silver cases, not only for our own movements, but for those of other factories, ours being the only establishment that turns out watches complete in every respect.

As these Watches are for sale by the trade generally throughout the United States, and at a retail profit made: most reasonable by competition, the Company invariably decline orders of a retail character.
